

## **Sample Prices for Custom Commissions**

This is a ballpark list of prices for different kinds of masks. These figures basically cover the time and materials for sculpting, making the mold, casting the mask, and basic painting. The actual price will be determined once the details of the mask and embellishments are discussed (wigs, hats, horns, custom paint finishes, etc.)

It is sometimes possible to create a custom piece using one of Beckie's existing stock molds or a purchased base. If this is an option, that could bring the price down.

Basic Half Mask    \$350

Basic Full Face Mask    \$450

Full over-the-head mask    \$2000

Portrait Mask from photo    \$2500 + price of wig (if requested)
